**Kemi Doll, M.D., M.S.C.R. (she/her)**

**Associate Professor, Department of Obstetrics and Gynecology,  
University of Washington School of Medicine  
Adjunct Associate Professor, Department of Health Systems and  
Population Health, University of Washington School of Public Health.**

Dr. Doll is a gynecologic oncologist and health services researcher at the University of Washington. Dr. Doll's expertise is in patient-reported outcomes, community engagement, and population-based analyses. Her research centers on examining Black-White racial inequity in the care of benign and malignant gynecologic disease in the U.S., with a focus on endometrial cancer. Her research has been funded by NIH, the Robert Wood Johnson Foundation, the Patient-Centered Outcomes Research Institute (PCORI), and several other foundations. She is the co-founder of ECANA, the Endometrial Cancer Action Network for African-Americans. Dr. Doll has earned many awards for academic achievement and humanism in medicine and currently serves as the Director of Underrepresented Minority Faculty Development for the UW School of Medicine.

She earned her medical degree from Columbia University, completed her residency in obstetrics and gynecology at Northwestern University, and completed a fellowship in gynecologic oncology at the University of North Carolina at Chapel Hill. She earned her master's degree from the UNC School of Public Health.
