Methods and Techniques for Integrating the Biological Variable “Sex” in Preclinical Research

Session I

The concept of including male and female subjects in studies

“Sex differences in preclinical research”

Jill Becker, Ph.D. ; University of Michigan

“Sex in the dish: Exploring cellular and molecular approaches”

Patricia Hurn, Ph.D.; The University of Texas System

“Enhancement of research findings: The significance of well-designed experiments”

Wei-Jung Chen, Ph.D. ; Texas A&M Health Science Center
