

## Crystal Edler Schiller, Ph.D.

**Clinical Psychologist; Tenured Associate Professor of Psychiatry; Associate Director, Center for Women's Mood Disorders; Director, School of Medicine Clinical Psychology Internship Program, University of North Carolina (UNC) at Chapel Hill; Member, Committee on the Assessment of NIH Research on Women's Health, National Academies of Sciences, Engineering, and Medicine (NASEM)**

Crystal Edler Schiller, Ph.D., is a licensed Clinical Psychologist and tenured Associate Professor of psychiatry at the University of North Carolina (UNC) at Chapel Hill. She serves as Associate Director of the UNC Center for Women's Mood Disorders and Director of the UNC School of Medicine Clinical Psychology Internship Program. She conducts an NIH-funded research program that focuses on sex steroid regulation of neural circuits and mood in women across the reproductive lifespan. Her research also aims to identify novel ways to expand access to evidence-based psychotherapy. Dr. Schiller completed predoctoral training in clinical psychology at the University of Iowa, T32-funded postdoctoral training in reproductive hormone-related mood disorders and affective neuroscience at UNC Chapel Hill, and a K23 career development award focused on the effects of estrogen on the neural reward system in perimenopause.
