

Elizabeth Barr, Ph.D.

Associate Director for Interdisciplinary Research, NIH Office of Research on Women's Health

Elizabeth Barr is the associate director for interdisciplinary research at the NIH Office of Research on Women's Health (ORWH). Dr. Barr joined ORWH in 2019, where she has coordinated ORWH's efforts to advance intersectional health research on [gender](#) as a social and structural variable, managed the ORWH [interprofessional education](#) program, and led efforts to advance [HIV research for women](#). Dr. Barr's background is in gender and women's studies, community-led HIV research, and reproductive justice. Dr. Barr completed her Ph.D. at the University of Wisconsin–Madison in rhetoric, politics, and culture and her M.S. at Towson University in women's and gender studies. Prior to joining ORWH, Dr. Barr served on the faculties of Towson University and the University of Maryland, Baltimore County and led interdisciplinary, cross-sector projects to increase women's engagement in clinical research.
