The **IRINAH** program was created to develop, adapt, and test the effectiveness of health-promotion and disease-prevention interventions in Native American populations.

## Notices of Funding Opportunities (NOFOs):

R01 - PAR-23-298 - <https://go.nih.gov/QRAZXaa>

R21 - PAR-23-299 - <https://go.nih.gov/EIVidUB>

R34 - PAR-23-285 - <https://go.nih.gov/yy78ZgD>

## Goals of the NOFOs:

To support research on interventions, including:

- **etiologic research** that will directly inform intervention development or adaptations
- research that **develops, adapts, or tests interventions** for health promotion, prevention, treatment, or recovery
- research on **dissemination and implementation** that develops and tests strategies to overcome barriers to the adoption, integration, scale-up, and sustainability of effective interventions

## Webinar Goals:

- Explain the **goals and objectives** of the NOFOs
- Highlight **what's new** with the NOFOs relative to prior IRINAH NOFOs, including the addition of an R34 mechanism and non-responsiveness criteria
- Answer **questions** from attendees
