

National Institutes of Health
Office of Research on Women's Health

Maeve Wallace, Ph.D. (she/her)

**Assistant Professor, School of Public Health and Tropical
Medicine, University of Tulane
Associate Director, Mary Amelia Center for Women's Health
Equity Research (MAC)**

Dr. Wallace is a reproductive and perinatal epidemiologist. Her research interests focus on the social, structural, and policy determinants of maternal and child health and health inequities, including structural racism, violence, health policy, and human rights. Her current work seeks to understand the reasons underlying persistent racial inequities in maternal and infant mortality in New Orleans, across the state of Louisiana, and nationwide. Prior to joining MAC, she completed a postdoctoral fellowship in the Epidemiology Branch of the Division of Intramural Population Health Research at the *Eunice Kennedy Shriver* National Institute of Child Health and Human Development. She is actively involved in collaboration with local and national community-based organizations and governmental agencies on efforts to improve maternal and child health and advance health equity.
